The magick that you will discover in this book is fast, easy, and effective. This magick works by connecting you to tremendously powerful forces that are born from the depths of the human soul. When called, these intelligent forces come quickly, eager to fulfill all of our needs in life. The rituals you will find here are short, but powerful enough to transform your entire reality and restructure it into the life that you desire.

If you are used to feeling out of control in your life, as if no matter how hard you struggle you just can't seem to get ahead, these genies have the power to change that. When you summon them, you are summoning ancient, long forgotten powers that dwell within the human soul and inspire humanity to greatness. With the unique method you will find in this book, you will be given the gift to tap into that greatness and discover ancient secrets that have been locked away in the human soul for far too long.

Within these pages you will discover 84 uniquely powerful spirits that give you the power to discover love and romance, develop psychic abilities, protect the ones you love and hold dear, as well as to make others respect you.

When you call the simple, ancient words of power you will discover within this book, you will instantly awaken mighty angelic forces that hear your call and swiftly come to your aid to fulfill your will in all things which you ask of them. You may feel a shudder of tremendous power as you intone these words of power and the forces of heaven bend down to answer your calls. You will feel loved, cared for, and utterly safe when you perform this magick. There are no demons or evil spirits being invoked here. These are forces of ancient light and divine power whose purpose is to uplift the soul of humanity.

No one knows the true origin of this magick, its origins are perhaps more than a thousand years old and were written down for future generations by a great 19th century magician known as Eliphas Levi. Yet, although many great minds have poured over the text he translated, they still found the powers to

be cryptic and difficult to understand. Without any type of rhyme or reason behind their ordering. It is here, within the pages of this book, that you will discover a clear and simple explanation of their powers that will enable you to put them immediately to use in your everyday life and, like the ancient alchemists, turn the metaphorical lead of your life into gold.

When you scan your eyes over the Hebrew letters and sigils you will find in this book, you are subconsciously tapping into tremendous powers of light that have worked magick for mankind for thousands of years. Regardless of whether you believe in angels or God it matters not. The power works automatically, just like turning a key in a car will start the engine. All there is for you to do is to follow the simple instructions and easy as baking a cake, you will witness your world change according to your will.

You may pause here if you like and flip through the pages of the book, looking at all of the powers that are presented here for you to choose from. Over 84 powers are at your fingertips. Regardless of what you desire to bring into your life you are likely to find power enough to spare within these rituals. Whether you desire to increase your physical energy, become more confident, increase your willpower to finish your projects, banish bad habits, attract potential romantic partners, or attract abundance and prosperity, you will find those powers here. You may wish to become an expert at divination, develop clairvoyance, or gain the ability to make wise plans that bring you success in whatever area of life you choose, if so then you will also find those powers here for you to choose from.

As you turn the pages of this book and read on, you will discover all that is possible for you. It is certainly not by accident that you picked up this book, that you are reading these words. Somewhere within these pages is a gift for you, a gift that has the power to transform your life in delightful ways that you may have only previously dreamed of. There are no lamps to rub and you certainly aren’t limited to only 3 wishes. With the 84 Genies of Power, you are being given the key to success in life. So turn the key and open the door to authentic spiritual power.

THE POWER OF THE GENIES

When you hear the word “Genies” you may immediately get ideas of a person rubbing a lamp and a blue ghost-like being comes out and offers 3 wishes. Or you may get the image of Arabic spirits called Djinn. The spirits you will find here are neither of those. These powerful, intelligent, and loving spirits you find here can be described as being the personified embodiment of the virtuous qualities of the human soul. I hesitate to go into theory behind how and why this magick works because I know that few will be interested in it, but I believe some theory is necessary to fully appreciate this magick.

The genies you will discover here have their origin within the human soul in much the same way that angels have their origin in God. These genies are therefore always with us, residing within the depths of our soul as a spiritual potential, waiting for us to call them into being to help us with every aspect of our life. When you call upon these genies during the ritual, you may become aware of a powerful and loving presence that gently hears your desires and then diligently sets about to fulfil your will for you.

Why do they work on our behalf and what do they get from it? Surely there must be a balanced give and take in all magick? The beauty of the magick you find here is that these genies are born to serve the human soul. The service of the human soul is their reason for being. For they are literally born from the human soul the same way musical harmonies are born from a keyboard or the strings of a guitar. Normally, these genies remain as unnamed forces quietly working within our soul, and only arising when there is a need to perform a great work in our life that will give us progress towards fulfilling our destiny.

It is said that to know the name of a spirit or force is to gain control over it. This is exactly what we are doing with this magick. When you call the genies by this method you are harnessing forces of raw, creative power and energy within your soul and sending it forth to do your will. These genies will never refuse your requests to them, it is their sacred duty to fulfill your will. Regardless of how big or small your requests seem, these powerful forces will move into action immediately and set about arranging the circumstances

of your life in a harmonious and non-disruptive way to bring about the fulfillment of your will.

My favorite part of this magick is that as we perform the magick and achieve the fulfillment of our desires we are also gaining spiritual growth. Performing this magick is like effortless weightlifting for your soul. With each request you make your soul grows stronger and you will begin to develop the powers of the genie that you call on so that you can access that power more easily in the future. Their powers will grow progressively stronger within you until one day you may no longer need to call upon the genie at all to fulfill that particular power as you will have integrated with that aspect of your soul represented by the genie. When this happens you will become capable of wielding that power for yourself by intention alone.

THE STORY OF HERCULES AND THE JOURNEY OF THE SOUL

My style of writing is to keep the intro to my books very short and to the point so that you can get right into the magick. I have found that this is much appreciated by my readers. No one buys a magick book to learn boring and obscure history lessons, but rather to gain access to authentic power that can change your life for the better. And that is what you will find in this book. But before we get to the heart of this book it helps to know a little bit more about the magick.

These genies are said to have originated from an ancient Greek book called the Nuctemeron which was translated into English by a great French occultist named Eliphas Levi in the 19th Century. In his translation, very cryptically we are shown 12 groups of spirits with 7 spirits in each group. We are told that they somehow relate to the 12 allegorical labors of Hercules and represent the “works of initiation” whatever that means. For many years occultists have studied these spirits and tried to derive meaning and practical uses for their powers with varying results. Through a series of fortunate synchronicities their meaning became clear to me in a unique way that I have not seen revealed anywhere else. Those revelations given to me through research and deep meditation form the basis of the magick you will discover within this book.

My understanding of the true powers of these spirits came from researching the story of the 12 labors of Hercules (traditionally known as Herakles – which means “Glory of Hera”). Hercules or “Herakles” can also be translated as “Glory of the Soul”, for I discovered that Hera represents the soul. In the traditional myth Hera, who is known as the Queen of the Gods, decided to make trouble for Hercules (the human soul) by causing him to become temporarily insane. In his insanity he commits the crime of killing his wife and children. As punishment for his crime he is kicked out of heaven and is sentenced to spend 12 years on Earth and while there, to be subject to the will of Eurystheus who signifies the ruler of the material world. The ruler of the material world tells the Hercules (who represents the human soul) that he has

to complete 12 tests or labors which means traveling through the 12 signs of the zodiac. This represents the journey of the soul's evolution as it travels through the signs of the zodiac. He is told that if he succeeds, he will become an immortal which means a highly evolved, perfected soul. This story has strong similarities to the story of Adam and Eve being kicked from the Garden of Eden.

So, the story goes that he endures 12 tasks or labors that are meant to destroy him. As he passes through each of these 12 labors he learns new lessons, gains new power, and evolves towards become a perfect immortal. This symbolizes the journey of the soul as it passes through each of the 12 signs of the zodiac. As the soul journeys, it learns the lessons of each sign and gains all the skills and abilities that each sign affords to it and thus the soul evolves towards ultimate perfection and reunion with the Source of this Universe.

THE MYSTERY OF THE 84 GENIES

Now enough with the history lesson. Where do the 84 Genies factor into all of this? Seven is the number of completion and perfection. There are 7 days of the week, 7 major planets, and 7 major chakras within the human body. These all correspond with the 7 genies in each of the 12 signs of the zodiac.

All 7 aspects of our soul (which are represented by the 7 chakras) must pass through each of the 12 zodiac signs. As these 7 aspects of our soul pass through the signs they each learn their own unique lesson and develop their own unique gifts and powers that the cosmic energies present within that zodiac sign gives to them. When all 7 aspects of our soul travel through all 12 signs of the zodiac and learns all of the lessons, we become a perfected soul, an immortal master of light.

These 7 genies each represent the powers and lessons of the soul in each sign of the zodiac. The beauty of this is that even without passing through the 12 signs and having to struggle to master each of them we are still able to tap into and access all 84 powers of the perfected soul through genies. And by working with these genies we naturally can learn the lessons each of them has to offer and thus evolve towards perfection even as we fulfill our will and our desires on Earth.

Through this magick we gain access to the powers of wealth, love, knowledge, discernment, power, and so many other gifts and powers of the soul. We are, like Hercules, both human and divine in nature. We are at once both human flesh and eternal soul. As mentioned previously, Hercules means “Glory of the Soul” and that glory spoken of is the light and power that these genies embody. This is why they are called “personified virtues”.

These genies are the light, radiance, virtue, and glory of the soul in embodiment. They are sparkling crystals of light of inestimable value. This book is your invitation to touch, experiment, play, learn, and most importantly, grow as you interact with these ancient and sacred forces of power. Know that as you perform this magick, you are fulfilling the purpose of every soul in this human life. This purpose is growth and evolution. And ultimately, it is this growth and evolution of the soul that is the true goal and

purpose of all magick.

THE RITUAL METHOD

In the pages that follow you will discover the 84 genies arranged in groups of 7 and categorized according to the astrological sign that they represent. Through hours of researching the powers and comparing them to the degrees of the zodiac and their meanings, I arrived at the realization of their proper order. You will find that their powers perfectly corresponded with the astrological position that they represent.

These 84 sigils are empowered to work for us through the use of various names of God and angels written in Hebrew. Don't let this scare you. You do not need to be able to read Hebrew to use this magick. Hebrew is a special language of great spiritual power and simply by scanning your eyes over the Hebrew letters during the ritual, you will be connecting on a soul level to ancient, powerful, divine forces of light that have the power to fulfill your will. The names of the 84 genies have also been converted into Hebrew writing to add to their potency and accessibility. Beneath the name of the genie in Hebrew, you will also find the name of each genie written in a special angelic script called Malachim which adds additional potency to the magick. You do not need to be able to read or understand any of the words on the sigil. As long as you scan your eyes over the sigil, it will work.

You will also see on the sigils some strange looking lines and shapes within bottom triangle and the two stars on the right and the left. These are the sigil of the genies drawn three times. This sigil aids you in connecting to the genie that you are calling on and only needs to be scanned by your eyes in order for it to work. This is visual magick. By seeing the sigil and calling the names using the simple ritual described here, you will quickly and easily be empowered to put the magick into motion.

Do not feel worried about pronouncing the Hebrew words or the names incorrectly. You cannot get this wrong. As long as you scan the sigil using the method that I will explain below, the forces and energies of the sigil are automatically with you and aware of you. At that time, even if you mispronounce their names, they will still sense your intent and will fulfill your will based on what your clear intent is.

After you find the genie that has the power that will help to bring you what you need, proceed to step one of the ritual outline.

Step one:

Tune into your feelings in the present moment. Contemplate the discomfort that inspired you to perform this ritual. You have a need. Feel the frustration of not having this need already fulfilled. Allow yourself to truly open up to your honest feelings in the present moment. This only takes a minute or less.

Step two:

Beginning at the very tip of where the upper triangle is pointing to (the top middle of the circle), begin to scan your eyes counter-clockwise (from right to left) around the words in the outer circle. You don't need to scan exceptionally slowly, but nor should you do this too quickly. Just gradually scan your eyes across the letters as you take in their shapes at a leisurely pace and know that you are in this moment connecting to powerful divine forces who have the power to fulfill your will.

Step three:

Look at the upper triangle. Within the triangle you see four rows of Hebrew letters. This is the highest name of God and is pronounced EE-AH-OH-EH. As you gaze into the triangle, letting your eyes rest upon the letters there, begin to chant EE-AH-OH-EH until you feel relaxed and peaceful. This connects you to the Source of all spiritual power in the universe.

Step four:

Briefly look at the name of the genie in the middle bar at the center of the circle. Then look at the shape within the bottom triangle briefly as well, this is the genie's sigil. As you do so, know that this is the spiritual force that will come forth and fulfill your request. Feel gratitude towards the genie for the help that you will receive from them.

Step five:

Here you will call the names that are written in the outer circle. Remember that you cannot get this wrong. You are already connected to these spirits because you scanned their names visually. The names are written phonetically to make for easy pronunciation. When you call the names you may do so out loud, vibrating the names with power, or you may call them

quietly or silently inside your head. The most important thing is that you call them as if you are literally calling a friend or a person across the room to pay attention to you. Know that they hear you and are present with you the moment that you speak their name.

Say the words:

AH-DOH-NAI

EE-AH-OH

YICH-EH-AK-EV-CAH-HA

YITZ-OH-HAH-YAHV-TAH-HAH

YEE-YAH-HAH-GAV-LEE-HAH

GAH-DEE-YELL

TOO-VEE-YELL

OO-REE-YELL

RAH-FAH-EL

MEE-KAH-EL

GAH-BREE-YELL

YUH-DID-YAH

RAH-ZEE-YELL

YEH-OH-EL

NOO-REE-YELL

YAH-BAHM

EE-AH

OH-MEM

VEH-HOO

The words above stay the same in each ritual. The only thing that changes in each ritual is the spirit’s name. So after saying the words of power above, we make our short call to the genie as shown below. This example uses the spirit Sialul:

Sialul!

Hear me Sialul!

It is my will that you _________. (state your will 3 times in 2 sentences or less)

Thank you Sialul! Go in peace.

You will see that you are instructed to state your will 3 times in 2 sentences or less. So lets say your desire is to get a new car. You would say, “It is my will that you bring to me a new car.” And you will repeat that sentence 3 times before saying “Thank you Sialul! Go in peace!”

Step six:

Gaze at the sigil with a feeling of gratitude that your desired result has already come to be fulfilled. This step is absolutely essential to the success of the ritual. The more powerfully you feel gratitude for the results of the ritual (even though you cannot see them in physical reality yet) the more powerfully the ritual can manifest. See your results in your mind as already being real. See yourself enjoying the results and let gratitude well up from within your heart like light and pour this light into the image as you perform the next step. This step usually only takes about a minute or two but you can extend it longer if it feels good.

Step seven:

While still feeling that feeling of gratitude, chant YAHADONAHI (YAH-HAH-DOH-NAH-HEE) 3 times while gazing at the sigil to close the ritual.

This name connects you to divine abundance and good luck.

SUMMARY OF THE RITUAL METHOD

1. Sense your feelings in the present moment regarding your desire.

2. Scan the outer circle of Hebrew letters.

3. Look at the upper triangle and chant EE-AH-OH-EH until you are relaxed.

4. Scan the genie's name in the middle and briefly scan the sigil in the lower triangle.

5. Say the words:

AH-DOH-NAI

EE-AH-OH

YICH-EH-AK-EV-CAH-HA

YITZ-OH-HAH-YAHV-TAH-HAH

YEE-YAH-HAH-GAV-LEE-HAH

GAH-DEE-YELL

TOO-VEE-YELL

OO-REE-YELL

RAH-FAH-EL

MEE-KAH-EL

GAH-BREE-YELL

YUH-DID-YAH

RAH-ZEE-YELL

YEH-OH-EL

NOO-REE-YELL

6. Gaze at the sigil with a feeling of gratitude that your desired result has already come to be fulfilled.

7. Chant YAHADONAHI (YAH-HAH-DOH-NAH-HEE) 3 times while gazing at the sigil with gratitude to close the ritual.

Many people go through their whole life without knowing the answers to these questions. Then on the other hand there are those who do know who they are and what they most want in life but are too afraid to pursue it due to shyness and insecurity or a fear of standing out and being seen and noticed by others.

CUNIALI (KOO-KNEE-ALL-EE)

Role: Genius of Association

Planet: Sun in Leo

Sephirah: Tipareth

Day: Sunday

Greek God: Helios

Chakra: Heart Chakra (Fourth Chakra)

Powers: Cuniali gives us the power to find the perfect balance in interpersonal relationship. That balance consists in finding the happy medium between two polarities. The first polarity is being confident, assertive, bold, and dominant. The second polarity is being meek, humble, and allowing of others, of working as a team. When these two polarities are balanced then all relationships become effective. It is a balance between Yin and Yang that brings harmony.

If you find that you are having trouble being confident, speaking up, and standing up for yourself Cuniali can give you the confidence and inner power that you need to be bolder. If on the other hand you are being told that you are too overbearing, too forthright, or too aggressive, then Cuniali can help you find the perfect balance. It is hard to know what polarity you fall into on your own so it is easier to simply ask this genie to for balance in any relationships where things aren't working in your life, to perfect your connection with others in your life so that your relationships are effective in every area of your life and everyone can get what they want and need in a harmonious way.

This is a power whose value is far reaching. It is the power to master human relationships. When we have mastered the art of human relationships, we can succeed in any area of life that we choose. For what else is life if not relationships with others?

SIGIL OF CUNIALI

GENII OF THE SIXTH HOUR VIRGO

SIALUL (SEE-AH-LOOL)

Role: Genius of Prosperity

Planet: Moon in Virgo

Sephirah: Yesod

Day: Monday

Greek God: Selene

Chakra: Sacral Chakra (Second Chakra)

Powers: When we think of prosperity, we usually think of large flowing amounts of money or fancy card and lots of houses. While this can be an image of prosperity to some, to others prosperity could be just having two loaves of bread to eat instead of one. Or having one well clean and well running car than 5 fancy cars they don't even drive.

When we manage what little we have, even that little can seem like a lot. Give a glutton a piece of bread to eat and he might throw it on the ground and tell you to bring him a steak instead. Yet give a starting person a piece of bread and they might view you as if you were a god and feel immensely grateful. The power of Sialul is about managing what ever we have well and being satisfied and grateful for whatever possessions we have instead of forever seeking to gain more. Sialul gives us the power of quiet and simple contentment with our current lot in life and the ability to manage it so well that it feels that we are truly prosperous. Prosperity has many definitions, but when we are able to manage what we have in such a way that all of our needs are met, that is true prosperity.

It has been said by many that when we are faithful over a little, we will be given a lot. This also holds true here. Sialul gives us the power to manage well whatever we have and as we do so, we will find a steady, natural increase flowing into our lives. Gratitude creates abundance. And satisfaction can make a mansion out of a mud hut.

MIZGITARI (MEAZE-GIH-TAR-EE)

Role: Genius of Eagles

Planet: Jupiter in Virgo

Sephirah: Chesed

Day: Thursday

Greek God: Zeus

Chakra: Throat Chakra

Powers: Although eagles fly high across the expansive sky and can see from horizon to horizon from their high vantage point, they have a sharpness and precision of sight that allows them to see even the smallest mouse running across the ground before swooping down speed and accuracy to grasp it. Jupiter rules expansion and Virgo's influence is methodical precision. Mizgitari is a genie who gives us the power to balance both of these extremes.

This power is useful because it allows us to stay organized in our life and our projects by keeping the whole of the project in mind, even while working on the smallest of details. To see how the smallest detail fits into the larger scope of things and how the larger scope of things is composed of each precise detail. If you feel lost and directionless in your life, call on Mizgitari to help you remember the big picture and give direction in your life. This can unfold in a number of ways from reading something that guides you, or receiving guidance and insight from another person in your life or even a direct intuitive knowing.

If you are feeling overwhelmed at the thought of completing a task that seems to tiresome or big or too much to handle, call on this genie to help you to see the best place to begin working on the project. This power is also helpful when deciding how to accomplish a magickal goal. Working in

this way, there is very little we cannot achieve. Everything in life has a formula for success. Mizgitari can reveal to you that formula. As the great philosopher Seneca once said, “Luck is what happens when preparation meets opportunity.”

And finally, with her power to influence the heart of another, she has the power to encourage the blossoming of romance between you and another. This power works by opening the heart of another person to seeing what is attractive within you. It is similar to the effect of cupid's arrow which sparks love in the heart of the one you desire when they lay eyes on you, for they see you in a new light and they see beauty in you which they didn't perceive before.

SIGIL OF CAUSUB

SALILUS (SAH-LEE-LUHS)

Role: Genius Who Sets Doors Open

Planet: Saturn in Virgo

Sephirah: Binah

Day: Saturday

Greek God: Kronos

Chakra: Crown Chakra (Seventh Chakra)

Powers: Ever see those people who are super successful and yet when you look at their work it is full of errors or the quality is sub-par and yet, somehow, someway they are popular and successful? You may tell yourself that you can do what they do and easily. But for some strange reason, you don't. There may be a large number of reasons that hold you back but one of them almost certainly is overthinking the situations, trying to be a perfectionist, and therefore holding yourself back from achievement.

Often times we are our own worst critic, our own biggest obstacle. Our thoughts tell us that we aren't good enough, that we will never succeed, that we don't have the time or the knowledge or a million other self-sabotaging things. Salilus is a genius sets open the doors to our dreams by helping us to overcome this self-limiting nature. He gives us the power to simply dive in and work on our tasks, so simply start whatever is on our minds to start. The journey of a thousand miles begins with a single step. But if you are overly focused on the journey and all that it will take to get to your goal, you never take that first step.

He can also work to open doors that are closed to us such as doors to a promotion or to a social circle or to a career that seems like it is out of reach to us. Call on Salilus to give you access to those things that are close but seem just out of reach and he can help you to bridge the gap. This can sometimes work in a seemingly miraculous way and help you to seem qualified for positions that you never believed you would be chosen for. In either case, when you work with this power, you may be amazed to find out

how far you can go when you are no longer doubting yourself and how quickly you accomplish that thousand mile journey when you stop deliberating and simply take that first step. We are all far more capable than we believe we are.

Sigil of Salilus

JAZER (JAHZ-AIR)

Role: Genius Who Compels Love

Planet: Sun in Virgo

Sephirah: Tipareth

Day: Sunday

Greek God: Helios

Chakra: Heart Chakra (Fourth Chakra)

Powers: Jazer has the power to compel love to blossom between two people by causing them to drop all boundaries and borders between them. To stop worrying about what others might think and releasing judgement of the other person. With the power of Jazer, both people drop their guard around each other and open up. So often we are up tight and on guard in life. The sheer pleasure of being open, unreserved, and completely relaxed around each other causes love to well up deep within their hearts for each other. There is a sense of overflowing warmth that naturally arises when we stop being so uptight, restricted, and judgmental around others. From that warmth, love is naturally born.

This power creates an openness of heart and mind between two people. When two people both open their hearts and minds to each other it creates a sacred spaciousness between them in which their two hearts begin to beat as one. Be careful who you direct this power towards because it is exceptionally strong and long lasting. When effective, the energy of Jazer creates a powerful pull in your hearts towards each other like the pull of the soul towards its heavenly home. It is a pull that causes your hearts to resonate on the same frequency. And in that harmonic frequency, an enduring love is born.

TABRIS (TAH-BREEZE)

Role: Genius of Free Will

Planet: Moon in Libra

Sephirah: Yesod

Powers: When we are caught up with worrying about how to please others and how to ensure we can please everyone we can never fulfill our true will. It is nearly impossible to live our true will, chase our dreams, and follow our passions without stepping on toes. If a desire to please others and live in harmony is preventing you from doing what you desire to do, call on Tabris. She has the power to make you resolute, determined, and focused on fulfilling your will in all things. This doesn't make you a jerk or uncaring. This makes you like a warrior's arrow, slicing through the air towards its target. You don't set out to hurt anyone but neither are you overly afraid of offending those who stand in your path.

Tabris has the power to erase timidity and the tendency to be worried about "rocking the boat." She gives us the power to stand up for ourselves. To feel free to do what we want to do and be who we want to be. This is an act of love for ourselves. For how can we love or help others if we don't love and help our self first? In this sense, Tabris can also give us self-confidence and self-assurance.

SIGIL OF NITIKA

HAATAN (HAH-TAHN)

Role: Genius Who Conceals Treasures

Planet: Venus in Libra

Sephirah: Netzach

Day: Friday

Greek God: Aphrodite

Chakra: Solar Plexus Chakra (Third Chakra)

Powers: The spirit behind all treasures is the spirit of beauty. Beauty is a reflection of our divine source. All that is held dear and revered as sacred or as a treasure is born from this spirit of beauty. This includes, art, philosophy, music, love, romance, dance, and all things that bring juiciness to life and make it worth living. This spirit forms a sort of yin and yang relationship with Nitika, the previous genie. Nitika represents material wealth. Haatan represents spiritual wealth. Spiritual wealth is what truly creates the value of all that we treasure and hold dear.

The reason that we desire love, music, art, celebration, and money is not for the objects themselves, but for the spiritual joy, emotional upliftment, and inner pleasure that they bring. Material treasures are just like the outer shell, like a cup. The joy, and pleasure that they bring is like the water that is poured into a cup. Hataan represents this water, which is the spiritual essence that gives all things of beauty and all treasures their true value.

In practical terms, you can call on Hataan in the creation of art, to infuse it with beauty that others will feel. You can infuse your relationships (romantic or otherwise) and interactions with people with this spiritual beauty and thus greatly enhance your interactions with those whom you come into contact with. If you create music, sculpture, dance choreography, jewelry, or any other form of art, this spirit of beauty can infuse your work with that special quality, that fifth element which makes a work of art into a genuine masterpiece that conveys spiritual beauty and uplifts the hearts of the beholders. Of course, this power does not increase your technical skills so

you will still have to practice and work on technique. But Hataan can infuse soul into all that you do and create.

SIGIL OF ZEIRNA

TABLIBIK (TAH-BLEE-BIK)

Role: Genius of Fascination

Planet: Mars in Scorpio

Sephirah: Geburah

Day: Tuesday

Greek God: Aries

Chakra: Root Chakra

Powers: Tablibik's energy is intense and explosive. This is the power of passion harnessed. His mighty powers work in two ways. If you are working on accomplishing a project and you need extra power and an extra push to continue working on the project until it is done, call on Tablibik to give you that push. He will give you an intensity of energy and focus similar to a genius at work. This won't make you more intelligent or intellectually capable, but it will give you a raw motivation, an animal-like hunger to complete the task you are focusing on and not give up until it is done. This power can be invaluable to procrastinators or those who start things and don't finish them. As well as for tackling boring taks. This is the drive and willpower of great entrepreneurs and great athletes who don't allow failure to stop them and keep getting up no matter how many times they fall down. This is the energy that all great boxers thrive on when in the ring.

The second way this power works is by taking this passionate intensity and turning it outwards to influence others. This won't work with everyone you come into contact with, only with those who would be receptive to your influence. This power works by creating an aura of attraction and fascination around you. This is a primal magnetism that draws others towards you. This is also known as charisma. It is that special force of attraction that goes beyond words or understanding that pulls people to like or even love and desire you just by your sheer presence alone. This power works best when used for general attraction for friendship or to attract a new lover. It doesn't work as well when directed towards a specific person or people who see and interact with you on a daily basis as their preconceived notions of you can

block the influence. Therefore, it takes more effort and energy to make this work on people you know, but works readily with people you are meeting for the first time or those you haven’t seen in a long time.

SIGIL OF TABLIBIK

TACRITAU (TAH-KRIH-TAO)

Role: Genius of Goetic Magic

Planet: Mercury in Scorpio

Sephirah: Hod

Day: Wednesday

Greek God: Hermes

Chakra: Third Eye Chakra (Sixth Chakra)

Powers: Tacritau is a very powerful genie that holds power over and even thrives in all dark magick, goetic magick, and shadow aspects of the universe. He represents Mercury in Scorpio. Mercury is the planet ruling over magick and all forms of the occult, philosophy, and hermetic sciences. Scorpio is the sign of the Zodiac who is completely comfortable with and loves all dark and taboo things, including the occult and has no fear with confronting any one or anything no matter how dark or seemingly scary it is.

Tacritau combines these two powers for the purpose of giving us the power to directly face and work with the powers of darkness in this universe. If you are working with any forms of dark or goetic magick, calling on this genie can give you the bravery and spiritual power to confidently handle the dark energies manifesting through your work. You can fearlessly speak with demons and bid them to do your will. This power is very valuable if you have a fear of working with darker forms of magick. Tacritau will give you a calm and steady control in your workings and help you to handle the powerful energies of darkness while maintaining the integrity of your mind and emotions and thus keeping you safe. With this power you can master goetic magick and the demons and spirits you call on will respect your calm authority.

Tacritau also empowers you to do shadow work. Shadow work involves facing down the dark aspects of our psyche that hold us back from want to accomplish in life, sabotaging our life due to fears, phobias, and all types of negativity below the surface of our conscious mind, our subconscious. It is

typical to ignore these darker aspects of our self by watching tv or indulging in other mindless distractions. We love to avoid facing our self. Tacritau gives you the power to dive deep into the darkness of your subconscious mind, to confront your own internal demons and bring healing to them. It is said that our inner demons only want to be acknowledged and that once we do that, they will transmute into light, inner power, and spiritual strength. This is the work of inner alchemy and Tacritau is a master of this work.

SAIR (SAH-YEAR)

Role: Genius of the Stibium of the Sages

Planet: Venus in Scorpio

Sephirah: Netzach

Day: Friday

Greek God: Aphrodite

Chakra: Solar Plexus Chakra (Third Chakra)

Powers: At its heart, magick is not only about obtaining power over life, but about spiritual evolution. Spiritual evolution involves gaining control over the base, animal nature of our being and the negative energy that it can produce. Sair is a genie that gives us the power to have penetrating insight into our lower, animalistic, base nature and its tendencies towards selfishness, violence, and every other ego based vice that hinders us from spiritual growth. Sair helps us to gain control over the negativity of our ego so that we can make spiritual progress. This is the power of spiritual alchemy which the ancient sages practiced and depicted as the changing of lead to gold. Lead represents our base, carnal nature and gold represents our higher self, our spiritual or divine nature. Sair is capable of helping anyone who calls upon her to raise their spiritual vibrations to a higher level of love, peace, and joy.

Sair also rules over sexuality. If you feel afraid or ashamed of your sexuality, or feel sexually blocked then Sair can remove that sexual timidity. She has the power to help us connect to our powerful, primal sexual energy. This energy is like the spiritual fire that has the power to convert the lead of our base, animal nature into the gold of our divine nature. Sair will gladly help you to use your sexual energy to fuel your spiritual evolution. This power lends itself well to tantric sexuality of which Sair is also a master of. There is a wealth of possibility here with this genie.

BARCUS (BAR-KUHS)

Role: Genius of the Quintessence

Planet: Saturn in Scorpio

Sephirah: Binah

Day: Saturday

Greek God: Kronos

Chakra: Crown Chakra (Seventh Chakra)

Powers: Barcus is a genie with the powers of transmutation. Often in life we get weighted down with heavy vibrations, negative thoughts and emotions, doubts, and fears. These negative vibrations have the effect of slowing us down. We may often try to repress these negative feelings and emotions but that only compounds them within us until they manifest later as some form of physical, mental, or emotion imbalance.

Everything is just energy. Whether initially seen as being positive or negative, energy is energy. Barcus allows us to change repressed and negative emotions, thoughts, and energies back into a state of pure energy that we can use for our spiritual growth. This is the power to release all of that darkness that gets trapped and held deep inside of us. This is like a deep, spiritual cleansing process. Be patient with yourself and give yourself time and space when you work with Barcus as old negative or charged emotions, memories, thoughts, and feelings come to the surface to be transmuted into light and energy.

This may not be a power that you use often. Some like to work exclusively with Barcus over the period of a month, calling on him during meditation and then allowing things to rise to the surface, noticing what emotions and thoughts rise to the surface to be dealt with and released. Others prefer to use this power only when they feel negative thoughts, emotions, or beliefs that they wish to release day to day. The choice is yours.

SISLAU (SEAS-LAO)

Role: Genius of Poisons

Planet: Venus in Sagittarius

Sephirah: Netzach

Day: Friday

Greek God: Aphrodite

Chakra: Solar Plexus Chakra (Third Chakra)

Powers: Sislau is a genie of discernment in relationships. As mentioned earlier in the book, life is all about relationships. Relationships to our boss, house, job, car, parents, and so on. If we enter into a relationship that is harmful for us then our life could be ruined or at the very least greatly inconvenienced. Sislau gives us the power to know what relationship, endeavor, or purchase would be beneficial to us or harmful to us before we pursue it. This comes as an intuitive knowing by regulating our desire. If it is good for us, we may feel our desire for it increase. If it is bad for us Sislau will naturally lessen our feeling of desire for it. An easy way to use this power is to rate your level of desire on a scale of 1 – 10. After you call Sislau, notice if your desire grows higher or gets lower. If it is lower then Sislau is telling you that the relationship is not good for you. If it grows more, then he is indicating it will be beneficial. This power reminds me of a king's guard who eats the king's food first to ensure it is not poisoned before giving it to him. This power can potentially save you years of emotional, financial, or even spiritual trouble.

SIGIL OF SISLAU

SCHIEKRON (SHAY-KRON)

Role: Genius of Bestial Love

Planet: Saturn in Sagittarius

Sephirah: Binah

Day: Saturday

Greek God: Kronos

Powers: Ever tried to pull a dog or any other animal in a direction they don't want to go? No matter how hard you pull, they won't budge and they will resist with all their strength. The phrase, "stubborn as a mule" comes to mind. Well, our physical body is just like that. Just like a stubborn animal, it can be downright impossible sometimes to force our self to get up and workout, clean the house, stop a harmful habit, or stop eating unhealthy foods. This is because our body is as stubborn as an untamed animal, a rebellious animal.

If you are struggling to have more discipline and control over your mind (there is a reason Buddhists call it they "monkey-mind"), or your body then call on Schiekron. He is a genie that has the power to bring unity and harmony to the mind, body, and spirit by teaching us to rule over our mind and body with the power of our spirit. When we gain this control, there is nothing that we cannot accomplish. We will be able to break stubborn habits, go into deep meditation, lose weight or gain muscle, develop psychic abilities through limitless concentration, enhance your magickal abilities through greater focus and willpower, and many, many more benefits that come when we finally gain control over our stubborn animal-like lower nature.

Of course lesser and greater is relative depending on the person. But whenever you feel fear or uncertainty, call upon Hahabi to bring relief and restore a feeling of security and control.

PHLOGABITUS (FLOW-GAH-BEE-TUHS)

Role: Genius of Adornments

Planet: Mars in Capricorn

Sephirah: Geburah

Day: Tuesday

Greek God: Aries

Chakra: Root Chakra

Powers: It seems that nothing in this world maintains a state of perfect equilibrium on its own. Things in our life must be maintained in order for them to keep functioning properly or to improve. Whatever is not well kept or carefully maintained will tend to become worse and degrade. The proper word for this is entropy. To prevent entropy, we must maintain and constant, steady, driven effort to improve everything in our life. This can be tiresome, and even the best of us fall short in one or more areas of life. As a result, our health may begin to decline as we gain weight, our finances may run low, our car begins to malfunction, the house gets messy, or our relationships grow cold and distant.

Phlogabitus is a genie who gives us the power to improve everything in our lives. If you feel that any part of your life is suffering from entropy, call on Phlogabitus to help you restore order and harmony to your life. He has the power to give us the strength, focus, and motivation required to ensure that our life does not fall into disrepair or begin to degrade. This power may help us improve each and every part of our life and keep things running in a smooth and orderly fashion. If we are not steadily improving in every area of our life then we are degrading and declining. Call on Plogabitus to reverse the fall, to stop the descent into disorder, and to reverse it.

MASCARUN (MAHS-KAH-RUN)

Role: Genius of Death

Planet: Jupiter in Capricorn

Sephirah: Chesed

Day: Thursday

Greek God: Zeus

Chakra: Throat Chakra (Fifth Chakra)

Powers: Mascarun has the power of realism. There are few things that are worse than pursuing a dream that will never come to fruition. Magick is powerful and if we are honest, sometimes can seem downright miraculous. But sometimes we may encounter situations that are like a stone pillar and no matter how much magick we throw at them or how much effort we put into trying to change them or make them work, it is all useless and the situation just can’t be changed and won’t budge. To continue trying to change a situations that is impossible to change or pursue an impossible dream is to set oneself up for failure and defeat. It is far better to find out what we actually can achieve and pursue that instead.

Mascarun gives us the discernment to know what can and cannot be achieved. He helps us to have a solid, realistic outlook in life and not have our head in the clouds. If we call on Mascarun before pursuing something he will give us an idea of whether it is worth pursuing or if it will be a waste of time. Mascarun can also tell us when a relationship, job, or period of our life is at its end or when there is a potential for further growth. There is a time and a season for everything. Those who seem to have great luck are the ones who can sense what actions or pursuits will be fruitful and which ones are a waste of time and energy.

If a relationship has already been destroyed or harmed and it seems beyond repair however, Zarobi has the power to restore the relationship and help to rebuild the trust that was once shared. You may be hesitating on fulfilling your dreams due to preconceived notions of how difficult it will be to fulfill them. Or due to fear of failure and perfectionism. Butatar has the power to break through all of your hesitation and help you get right into the planning stage. He will give you the power to calculate exactly what needs to be done to bring your goals and dreams into reality. This doesn't mean that they will quickly manifest. But it does mean that you will be able to take concrete and realistic steps in the right direction so that slowly and steadily you will be able to see your dream come together into a concrete form.

Butatar, as his name suggests, can also help with mathematical calculations, and with those who work with astrology to understand the charts and make accurate predictions. This doesn't mean we become unruly or break laws, or rebel against societal structure. This power means that we are able to express our true self in a harmonious way and that self-expression brings success within the society.

If you are looking for a romantic partner who will see your true self and love you for who you really are then call on Sisera to help you shine in such a way that you attract that person into your life.
